## Website Design Quotation

**Prepared for:**

**Prepared by:** PSWeb Studio

## Introduction

At **PS Webstudio**, we understand that every website is unique. Our goal is to help you stand out and convert more leads by focusing on two key elements:

- **Your Unique Value Proposition** – We'll work closely with you to discover what makes your brand special and communicate that clearly across your website.
- **Performance-Driven Design** – Through modern UI/UX practices, responsive design, and SEO strategies, we'll ensure your site is built to attract and convert.

Let's explore how we'll bring your vision to life.

## Website Structure

Your website will include the following pages and features:

- **Homepage** – First impressions matter. We'll design a strong, engaging landing experience.
- **About Us** – Tell your story and build trust.
- **Services / Products** – Clearly present what you offer.
- **Case Studies / Reviews** – Real results build real confidence.
- **Process** – Explain how you work to set expectations.
- **Contact Page with Forms** – Easy for users to get in touch.
- **Blog / Insights Section** – Support SEO and show your expertise.
- **Gallery** – Display visuals beautifully.
- **Pricing / FAQ** – Reduce basic inquiries and increase conversion.
- **Legal Pages** – Privacy Policy & Terms & Conditions for compliance.

## Design & Development Process

1. **Discovery & Briefing:** Gather your goals, preferences, and content ideas.
2. **Design Concepts:** Two unique designs presented; you select and request up to 3 rounds of feedback.
3. **Content Integration:** You provide final content, images, and assets.
4. **Development:** Build the site using responsive, SEO-friendly code.
5. **Launch & Handover:** Testing and going live (6–10 weeks).
